WE DISSEMINATE NECESSARY INFORMATION

Ozvena

We publish magazine OZVENA (ECHO) about life of people with muscular dystrophy and about our activities.

"I always love to read Ozvena, where I can find a lot of useful information and advices." Peter

DUCHENNOVA SVALOVÁ DYSTROFIA: DIAGNOSTIKA A LIEČBA

Príručka pre rodiny

A booklet for families

For the first time we have translated and published in Slovak language recommendations given by international experts on what kind of care is required by boys with the Duchenne muscular dystrophy. This type is the most frequent one and it has a very serious progress and eventually leads into a necessity of using an respiratory apparatus.

“We are looking forward to a meeting with other members of OMD and if it would be evaluated through points, I would have given them full 100 points.”
Jana

WE ORGANIZE INTEGRATION STAYS

Members meeting

Every year we organize the integration stay for the members of OMD, which consists of an interesting programme focused on activation and for support of their independent living (counseling, the exhibition of compensation aids, professional lectures, cultural evenings, etc.)
